PROJECTS

Guardian AI 🛡️ | *React.js, FastAPI, SQLite, JWT, Ollama, Vercel*

- Developed a full-stack AI-powered career assistant using React.js, FastAPI, SQLite, and JWT authentication, enabling secure user registration, login, and personalized dashboards.
- Built AI-driven features including Resume Analyzer, Resume Job Match, AI Chat, Mock Interview, Cover Letter Generator, Career Roadmap, Report History, and PDF export using Ollama LLM integration.
- Deployed the React frontend on Vercel, delivering a responsive user interface with secure API integration, Dark Mode, and optimized performance.
- Helped users improve resume quality, identify skill gaps, prepare for interviews, and generate personalized career guidance through AI-powered recommendations.

HealthUp – AI-Powered Workout Planner 🏋️ | *MongoDB, Express.js, React.js, Node.js, OpenAI API*

- Built a full-stack fitness platform using the MERN stack with secure authentication and personalized workout management.
- Developed RESTful APIs using Node.js, Express.js, and MongoDB for user profiles, workout plans, and progress tracking.
- Integrated the OpenAI API to generate personalized workout and diet recommendations based on user goals and preferences.
- Designed a responsive React.js interface to improve user engagement and provide a seamless fitness planning experience.
